EVEN TONE RANGE

YOUR GUIDE TO EVENTONED SKIN

Uneven skin tone is a general term for several things including dark marks from past blemishes to discoloration. Using a face cream with SPF is just one of the ways to avoid an unusual darkening of the skin which is the biggest cause of uneven skin tone.

YOUR GUIDE TO HYDRATED SKIN

Dry skin is often a result of environmental conditions such as wind, cold and heat that removes moisture from your skin. It is important to moisturise and nourish dry skin to prevent dehydration and keep it looking healthy.

DO YOU HAVE DRY SKIN?

- Looks ashy and dull 
- Skin lacking radiance 
- Has visible lines 
- Delicate, may be flaky 

This range is formulated with Hyaluronic Acid that helps reduce skin dryness, increase skin moisture and reduce the appearance of wrinkles.

Step 1:

YOUR GUIDE TO OIL-FREE SKIN

Even though oily skin can lead to clogged pores and frequent breakouts, the oil also helps to protect skin. It tends to make skin less prone to wrinkles. The key is to create a balance between too much oil and keeping skin moisturised.

DO YOU HAVE OILY SKIN?

- Looks shiny all over
- Has frequent breakouts
- Has visibly enlarged pores
- Skin texture is uneven

This range contains Kiwi extract that is rich in amino acids and Vitamin C, both essential to control the excess production of sebum that can lead to oily skin.

YOUR GUIDE TO BALANCED SKIN

Having combination skin means that your skin is dry in some places and oily in other places. This can make taking care of your skin more challenging as you try to avoid making the T-Zone even more oily or cheeks drier. The answer is to use products formulated specifically for combination skin.

DO YOU HAVE COMBINATION SKIN?

- Shiny in some areas and dull in others
- Oily T-Zone (Forehead, nose, chin)
- Normal to dry cheeks

This range contains Malachite extract (a precious stone extract) that helps protect the skin from pollutants, promoting detoxification for healthy, balanced skin.
